PROFESSIONAL EXPERIENCE

Software Developer — Oct 2025 – Present
EmuWorks (KB-Synotec) — Skopje, Macedonia

- Built a full-stack task planning application with Next.js and React (TypeScript), leveraging Server Components and Server Actions to deliver a scalable and maintainable architecture.
- Integrated Microsoft Graph API to manage and synchronize Microsoft Planner tasks within the Microsoft 365 ecosystem, implementing secure Entra ID authentication and Microsoft Teams tab embedding.
- Designed accessible, responsive user interfaces with Tailwind CSS and implemented efficient client-state management using Zustand and SWR (caching and optimistic updates), with schema-based validation via React Hook Form and Zod.
- Collaborated with backend engineers and product managers to translate business requirements into scalable solutions, contributing to architectural discussions and code reviews.

Software Developer — Jul 2022 – Feb 2025
Damilah — Skopje, Macedonia

- Developed modern, responsive user interfaces with React and TypeScript, ensuring type safety and maintainable component architecture.
- Designed and implemented scalable REST APIs and business logic using ASP.NET Core, enabling seamless data flow between frontend and backend services.
- Utilized Entity Framework Core for efficient data access and object-relational mapping, applying best practices in query optimization and database interaction.
- Built clean, accessible, mobile-first UI components with Tailwind CSS to deliver consistent user experiences across devices.
- Contributed across the full stack, collaborating on frontend features and backend architecture to deliver cohesive end-to-end solutions.

Software Developer — Jan 2021 – Jun 2022
CodeIT Solution — Skopje, Macedonia

- Developed and maintained full-stack applications using ASP.NET Core and C#, building scalable and maintainable backend services.
- Designed and implemented responsive, user-centric interfaces with React and Bootstrap, delivering accessible and consistent UI experiences.
- Designed and optimized SQL Server databases, improving performance of critical queries and core business operations.
- Leveraged Entity Framework Core for object-relational mapping, ensuring clean data access patterns and maintainable persistence logic.
- Collaborated across frontend and backend teams to deliver end-to-end features within iterative development cycles.

Service Desk Analyst Nov 2017 – Dec 2020
Support and Solutions Center MK (Katoen Natie) Skopje, Macedonia

- Provided technical and business support within the Business Solutions Group (BSG) and Business Intelligence Competency Center (BICC), collaborating with cross-functional teams to resolve system and operational issues.
- Analyzed and troubleshot Transport Management Systems (TMS) and Warehouse Management Systems (WMS), contributing to workflow optimization across logistics operations.
- Performed SQL queries and data validation to ensure reporting accuracy and maintain system integrity.Created and maintained operational and performance documentation to support business analysis and decision-making.
- Conducted functional and regression testing on SQL-based systems to verify data consistency and support issue resolution.

Business Analyst May 2017 – Oct 2017
BizzBee Solutions Skopje, Macedonia

- Conducted market and competitive analysis to support strategic planning and data-driven decision-making.
- Developed detailed business plans using data analysis and scenario comparison to evaluate potential opportunities and risks.
- Analyzed KPIs and operational metrics to identify performance trends and improve visibility into business results.
- Translated complex data into clear reports and presentations for teams across different departments.
- Performed SWOT and cost-benefit analyses to support decision-making and resource allocation.

Analytics Manager Jul 2016 – Apr 2017
Institute for Political Research – Skopje (IPRS) Skopje, Macedonia

- Led a team of researchers in applying statistical analysis and data-driven methodologies for social development projects.
- Oversaw data collection, analysis, and interpretation to support evidence-based recommendations across diverse research initiatives.
- Provided expertise in survey research, data analysis, and policy evaluation to guide project execution.
- Collaborated with clients including NGOs, international organizations, and government departments to deliver clear and actionable insights.
- Produced analytical reports and presentations translating public opinion data into structured findings and recommendations.

Marketing Assistant Feb 2016 – May 2016
DB Survey International Skopje, Macedonia

- Conducted market research and prospect analysis to support client outreach initiatives.
- Ensured accurate and well-organized client records to support effective communication and business development efforts.
- Communicated with prospective clients to gather relevant market data and support business development efforts.
- Assisted in preparing structured reports summarizing research findings for internal use.

Researcher Mar 2012 – Jan 2016
Institute for Political Research – Skopje (IPRS) Skopje, Macedonia

- Conducted field and telephone surveys to collect public opinion data across diverse demographic groups.
- Analyzed quantitative and qualitative data, preparing structured summaries and research reports.
- Moderated focus groups and facilitated structured discussions to gather in-depth qualitative insights.

- Summarized research results into clear, structured reports to support stakeholder communication and decision-making.

SKILLS

C# | ASP.NET Core | Entity Framework Core | REST APIs | Authentication | Clean Architecture | SQL | Microsoft SQL Server | TypeScript | React | Next.js | JavaScript | Redux | Tailwind CSS | Responsive Design | Microsoft Azure | Docker | Git / GitHub | Unit Testing | Agile Methodology

EDUCATION

Microsoft Certified: Querying Data with Transact-SQL (Exam 70-761)
SQL Server 2016 Database Development
Sep 2020 – Oct 2020
Skopje, Macedonia
Semos Computer Education Center
Completed official Microsoft training (MOC 20761) and successfully passed Exam 70-761. Focused on advanced Transact-SQL query development, including joins, aggregations, subqueries, CTEs, window functions, stored procedures, transactions, and error handling, with emphasis on performance-aware relational database design.

Web Development Bootcamp – Semos JavaScript Academy
May 2018 – Jan 2019
Skopje, Macedonia
Semos Computer Education Center
Completed an intensive full-stack web development program focused on the MERN stack (MongoDB, Express, React, Node.js). Gained hands-on experience building dynamic web applications, with emphasis on RESTful APIs, state management, and modern JavaScript (ES6+), alongside strong foundations in HTML5 and CSS3.

Oracle Certified Associate (OCA), Java SE 7 Programmer – Exam 1Z0-803
Jul 2016 – Sep 2016
Skopje, Macedonia
Semos Computer Education Center
Successfully passed Exam 1Z0-803 following official Oracle training. Validated proficiency in core Java programming, including object-oriented principles, exception handling, collections and generics, control flow, and writing maintainable, standards-compliant code.

Master of Arts in Political Science (MA)
Oct 2011 – Jul 2016
Skopje, Macedonia
Ss. Cyril and Methodius University, Faculty of Law (political studies) "Iustinianus Primus"
Political Management.

Bachelor of Arts in Political Science (BA)
Sep 2007 – Jun 2011
Skopje, Macedonia
Ss. Cyril and Methodius University, Faculty of Law (political studies) "Iustinianus Primus"
Political Science and Government.

CERTIFICATES

Programming in Microsoft C# - Exam 70-483

Querying Data with Transact-SQL - Exam 761

Oracle Certified Associate, Java SE 7 Programmer

Certificate in Advanced English (CAE) Level C1

COURSES

Complete ASP.NET Core and Entity Framework Development
Udemy

Complete guide to building an app with .Net Core and React
Udemy

Learn to build an e-commerce store with .Net, React & Redux
Udemy

The Complete SQL Bootcamp: Go from Zero to Hero
Udemy

The Web Developer Bootcamp
Udemy

Build Responsive Real-World Websites with HTML and CSS
Udemy

MERN Stack Front To Back: Full Stack React, Redux & Node.js
Udemy
